SAFETY DATA SHEET

1. Identification

Product identifier Butcher Block Conditioner

Other means of identification None.

Recommended use For conditioning and protecting butcher blocks and cutting boards or any wooden utensils

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Manufacturer

Company name Howard Products Inc.
Address 560 Linne Road

Paso Robles, CA 93446

United States

Telephone 1-805-227-1000 **e-mail** Not available.

Emergency phone number CHEMTREC: 1-800-424-9300

Supplier See above.

2. Hazard identification

Physical hazards Not classified.
Health hazards Not classified.
Environmental hazards Not classified.

Label elements

Hazard symbol None.
Signal word None.

Hazard statement The mixture does not meet the criteria for classification.

Precautionary statement

Prevention Observe good industrial hygiene practices.

Response Wash hands after handling.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Other hazards None known.

Supplemental information None.

3. Composition/information on ingredients

Mixtures

Non hazardous by WHMIS Criteria.

4. First-aid measures

InhalationIf symptoms develop move victim to fresh air. If symptoms persist, obtain medical attention.Skin contactFlush with cool water. Wash with soap and water. Obtain medical attention if irritation persists.Eye contactFlush with cool water. Remove contact lenses, if applicable, and continue flushing. Obtain medical

attention if irritation persists.

Ingestion Rinse mouth. Do not induce vomiting. If vomiting occurs naturally, have victim lean forward to

Direct contact with eyes may cause temporary irritation.

reduce risk of aspiration. Obtain medical attention.

Most important

symptoms/effects, acute and

delayed

Indication of immediate medical attention and special

treatment needed

Treat symptomatically.

General information

If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Avoid contact with eyes and skin. Keep out of reach of children.

#28916 Page: 1 of 5 Issue date 16-February-2018

5. Fire-fighting measures Foam. Dry chemicals. Carbon dioxide. Suitable extinguishing media Not available. Unsuitable extinguishing media Specific hazards arising from During fire, gases hazardous to health may be formed. the chemical **Hazardous combustion** May include and are not limited to: Oxides of carbon. products Special protective equipment Self-contained breathing apparatus and full protective clothing must be worn in case of fire. and precautions for firefighters Fire fighting Cool containers exposed to heat with water spray and remove container, if no risk is involved. equipment/instructions Specific methods Use standard firefighting procedures and consider the hazards of other involved materials. General fire hazards No unusual fire or explosion hazards noted. 6. Accidental release measures Keep unnecessary personnel away. For personal protection, see section 8 of the SDS. Personal precautions, protective equipment and emergency procedures Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is Methods and materials for possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth containment and cleaning up and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. **Environmental precautions** Avoid discharge into drains, water courses or onto the ground. Do not discharge into lakes, streams, ponds or public waters. 7. Handling and storage Precautions for safe handling Avoid prolonged exposure. Wash thoroughly after handling. Use good industrial hygiene practices in handling this material. When using do not eat or drink. Keep away from heat and sources of ignition. Conditions for safe storage, Store in original tightly closed container. including any incompatibilities Store away from incompatible materials (see Section 10 of the SDS). Keep out of reach of children. 8. Exposure controls/Personal protection No exposure limits noted for ingredient(s). Occupational exposure limits **Biological limit values** No biological exposure limits noted for the ingredient(s). Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates Appropriate engineering controls should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Individual protection measures, such as personal protective equipment Wear safety glasses with side shields. Eye/face protection Skin protection Hand protection Impervious gloves. Confirm with reputable supplier first. Other Wear suitable protective clothing. As required by employer code. Where exposure guideline levels may be exceeded, use an approved NIOSH respirator. Respiratory protection Respirator should be selected by and used under the direction of a trained health and safety professional following requirements found in OSHA's respirator standard (29 CFR 1910.134), CAN/CSA-Z94.4 and ANSI's standard for respiratory protection (Z88.2). Thermal hazards Not applicable. General hygiene Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective considerations equipment to remove contaminants. When using do not eat or drink. 9. Physical and chemical properties Gel Appearance

Not available.

Auto-ignition temperature Not available. **Decomposition temperature** Not available.

Viscosity 2247 mm²/s @ 40 □ C

Other information

Not explosive. **Explosive properties Oxidising properties** Not oxidising

10. Stability and reactivity

Reactivity This product may react with strong oxidising agents.

Material is stable under normal conditions. **Chemical stability** Possibility of hazardous Hazardous polymerisation does not occur.

reactions

Conditions to avoid Do not mix with other chemicals.

Incompatible materials

Hazardous decomposition products

Strong oxidising agents.

May include and are not limited to: Oxides of carbon.

11. Toxicological information

Information on likely routes of exposure

Inhalation Prolonged inhalation may be harmful.

Skin contact No adverse effects due to skin contact are expected. Eye contact Direct contact with eyes may cause temporary irritation.

Ingestion May cause stomach distress, nausea or vomiting.

Symptoms related to the physical, chemical and toxicological characteristics Direct contact with eyes may cause temporary irritation.

Information on toxicological effects

Not available. Acute toxicity

Skin corrosion/irritation Prolonged skin contact may cause temporary irritation. Exposure minutes Not available.
Erythema value Not available.
Oedema value Not available.

Serious eye damage/eye

irritation

Direct contact with eyes may cause temporary irritation.

Corneal opacity valueNot available.Iris lesion valueNot available.Conjunctival reddeningNot available.

value

Conjunctival oedema value Not available.

Recover days Not available.

Respiratory or skin sensitisation

Respiratory sensitisation Not a respiratory sensitizer.

Skin sensitisation This product is not expected to cause skin sensitisation.

Germ cell mutagenicity

No data available to indicate product or any components present at greater than 0.1% are

mutagenic or genotoxic.

Carcinogenicity Not classifiable as a carcinogen.

Reproductive toxicityThis product is not expected to cause reproductive or developmental effects.

Specific target organ toxicity -

single exposure

Not classified.

Specific target organ toxicity -

repeated exposure

Not classified.

Aspiration hazard Not an aspiration hazard.

Chronic effects Prolonged inhalation may be harmful.

Further information This product has no known adverse effect on human health.

12. Ecological information

Ecotoxicity Not available.

Persistence and degradability No data is available on the degradability of this product.

Bioaccumulative potential No data available.

Mobility in soil No data available.

Mobility in general Not available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation

potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructionsCollect and reclaim or dispose in sealed containers at licensed waste disposal site.

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste code

The waste code should be assigned in discussion between the user, the producer and the waste

disposal company.

Waste from residues / unused

products

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see:

Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is

emptied. Empty containers should be taken to an approved waste handling site for recycling or

disposal.

14. Transport information

General Canada: TDG Proof of Classification: In accordance with Part 2.2.1 (SOR/2014-152) of the

Transportation of Dangerous Goods Regulations, we certify that the classification of this product is correct as of the SDS date of issue. If applicable, the technical name and the classification of

the product will appear below.

Transportation of Dangerous Goods (TDG - Canada)

Not regulated as dangerous goods.

15. Regulatory information

Canadian federal regulations This product has been classified in accordance with the hazard criteria of the HPR and the SDS

contains all the information required by the HPR.

Export Control List (CEPA 1999, Schedule 3)

Not listed.

Greenhouse Gases

Not listed.

Precursor Control Regulations

Not regulated.

WHMIS status Not Controlled

International regulations

Inventory status

Inventory Name On Inventory (Yes/No)* Country(s) or region Canada Domestic Substances List (DSL) Yes No

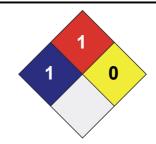

Canada Non-Domestic Substances List (NDSL)
