

Material Safety Data Sheet

Section 1: Product & Company Identification

Product Name: Briggs & Stratton 4-Use™ Lubricant (aerosol)

Product Number (s): 100043, 100043F (CRC Parts #09677 & 79677)

Manufactured By:

CRC Industries, Inc.

885 Louis Drive

Warminster, PA 18974

Section 2: Hazards Identification

Emergency Overview

Appearance & Odor: Amber liquid, pleasant odor

DANGER

Flammable. Harmful or Fatal if Swallowed. Contents Under Pressure.

As defined by OSHA's Hazard Communication Standard, this product is hazardous.

Potential Health Effects:

EYE: Slightly irritating but does not injure eye tissue.

SKIN: Frequent or prolonged contact may irritate and cause dermatitis. Low order of

toxicity.

INHALATION: High vapor concentrations (attainable at elevated temperatures well above

ambient) are irritating to the eyes and the respiratory tract, and may cause headaches, dizziness, anesthesia, drowsiness, unconsciousness, and other

central nervous system effects.

INGESTION: Small amounts of this product aspirated into the respiratory system during

ingestion or vomiting may cause mild to severe pulmonary injury, possibly

progressing to death.

CHRONIC EFFECTS: None known

TARGET ORGANS: None known

Medical Conditions Aggravated by Exposure:

pre-existing dermatitis

See Section 11 for toxicology and carcinogenicity information on product ingredients.

CRC Parts #09677 & 79677

Section 3: Composition/Information on Ingredients

COMPONENT	CAS NUMBER	% by Wt.	
Isoparaffinic hydrocarbon	64742-47-8	65 - 75	
White mineral oil	8042-47-5	15 – 25	
Inhibitor blend	proprietary	5 - 15	
Carbon dioxide	124-28-9	1 - 5	

Section 4: First Aid Measures

Eye Contact: Immediately flush with plenty of water for 15 minutes. Call a physician if irritation persists.

Skin Contact: Remove contaminated clothing and wash affected area with soap and water. Call a physician

if irritation persists. Wash contaminated clothing prior to re-use.

Inhalation: Remove person to fresh air. Keep person calm. If not breathing, give artificial respiration. If

breathing is difficult give oxygen. Call a physician.

Ingestion: If swallowed, do NOT induce vomiting. Keep at rest. Get prompt medical attention.

Note to Physicians: This product is an aspiration hazard.

Section 5: Fire-Fighting Measures

<u>Flammable Properties</u>: This product is flammable in accordance with aerosol flammability definitions

(16 CFR 1500.3(c)(6)).

Flash Point: 195 F (TCC) Upper Explosive Limit: 4.9
Autoignition Temperature: 482 F Lower Explosive Limit: 0.5

Suitable Extinguishing Media: Foam, dry chemical, or water spray.

Products of Combustion: Oxides of carbon

Protection of Fire-Fighters: Firefighters should wear self-contained, NIOSH-approved breathing apparatus for

protection against suffocation and possible toxic decomposition products. Proper eye

and skin protection should be provided. Use water spray to keep fire-exposed containers cool and to knock down vapors which may result from product

decomposition.

Section 6: Accidental Release Measures

Personal Precautions: Use personal protection recommended in Section 8.

CRC Parts #09677 & 79677

Environmental Precautions: Take precautions to prevent contamination of ground and surface waters. Do not flush

into sewers or storm drains.

Methods for Containment & Clean-up: Dike area to contain spill. Ventilate the area with fresh air. If in confined

space or limited air circulation area, clean-up workers should wear appropriate respiratory protection. Recover or absorb spilled material using

an absorbent designed for chemical spills. Place used absorbents into

proper waste containers.

Section 7: Handling and Storage

Handling Procedures: Do not use near an open flame, heat or other sources of ignition.

Storage Procedures: Store in a cool dry area out of direct sunlight. Aerosol cans must be maintained below 120 F

to prevent cans from rupturing.

Aerosol Storage Level: III

Section 8: Exposure Controls/Personal Protection

Exposure Guidelines:

	OSHA		ACGIH		OTHER		
COMPONENT	TWA	STEL	TWA	STEL	TWA	SOURCE	UNIT
Isoparaffinic hydrocarbon	NE	NE	NE	NE	1200	mfr	mg/m ³
White mineral oil	5*	NE	5*	10*	NE		mg/m ³
Inhibitor blend	NE	NE	NE	NE	NE		
Carbon dioxide	5000	30000(v	5000	30,000	NE		ppm
N.E. – Not Established (c) – ceiling (s) – skin (v) – vacated *- oil mist							

Engineering Controls: Area should have ventilation to provide fresh air. Local exhaust ventilation is generally

preferred because it can control the emissions of the contaminant at the source, preventing dispersion into the general work area. Use mechanical means if necessary to maintain vapor levels below the exposure guidelines. If working in a confined space, follow

applicable OSHA regulations.

Respiratory Protection: None required for normal work where adequate ventilation is provided. If engineering

controls are not feasible or if exposure exceeds the applicable exposure limits, use a NIOSH-approved cartridge respirator with organic vapor cartridge. Use a self-contained

breathing apparatus in confined spaces and for emergencies.

Eye/face Protection: For normal conditions, wear safety glasses. Where there is reasonable probability of liquid

contact, wear splash-proof goggles.

Skin Protection: Use protective gloves such as nitrile or neoprene. Also, use full protective clothing if there

is prolonged or repeated contact of liquid with skin.

Section 9: Physical and Chemical Properties

Physical State: Liquid

CRC Parts #09677 & 79677

Color: Amber Odor: Pleasant

Specific Gravity: 0.8127 Initial Boiling Point: 424 F

Freezing Point: ND

Vapor Pressure: < 0.1 mmHg @ 68 F Vapor Density: > 1 (air = 1)

Evaporation Rate: < 0.01 (butyl acetate = 1)

Solubility: negligible in water

pH: NA

Volatile Organic Compounds: wt %: 0 g/L: 0 lbs./qal: 0

Section 10: Stability and Reactivity

Stability: Stable

Conditions to Avoid: Temperature extremes, sources of ignition

Incompatible Materials: Strong oxidizing agents

Hazardous Decomposition Products: Oxides of carbon

Possibility of Hazardous Reactions: No

Section 11: Toxicological Information

Long-term toxicological studies have not been conducted for this product. The following information is available for components of this product.

ACUTE EFFECTS

Component	<u>Test</u>	Result	<u>Route</u>	<u>Species</u>
Isoparaffinic hydrocarbon	LD50	> 5 g/kg	Oral	Rat
Isoparaffinic hydrocarbon	LD50	> 2 g/kg	Dermal	Rabbit
Isoparaffinic hydrocarbon	LC50	> 5 mg/L/4H	Inhalation	Rat

CHRONIC EFFECTS

Carcinogenicity:

<u>Component</u> Result

OSHA: None listed IARC: None listed NTP: None listed

Other: None

Section 12: Ecological Information

Ecological studies have not been conducted for this product. The following information is available for components of this product.

CRC Parts #09677 & 79677

Ecotoxicity: No information available Persistence / Degradability: No information available Bioaccumulation / Accumulation: No information available No information available No information available

Section 13: Disposal Considerations

Disposal: The dispensed liquid product is not a RCRA hazardous waste. (See 40 CFR Part 261.20 – 261.33)

Aerosol containers should be fully emptied and depressurized before disposal. The empty container can

be recycled.

All disposal activities must comply with federal, state and local regulations. Local regulations may be more stringent than state or national requirements.

Section 14: Transport Information

Proper shipping description:

US DOT (ground): Consumer Commodity, ORM-D

Special Provisions: None

Section 15: Regulatory Information

U.S. Federal

Toxic Substances Control Act (TSCA):

All ingredients are either listed on the TSCA inventory or are exempt.

Comprehensive Environmental Response, Compensation and Liability Act (CERCLA):

Reportable Quantities (RQ's) exist for the following ingredients: None

Spills or releases resulting in the loss of any ingredient at or above its RQ require immediate notification to the National Response Center (800-424-8802) and to your Local Emergency Planning Committee.

Superfund Amendments Reauthorization Act (SARA) Title III:

Section 302 Extremely Hazardous Substances (EHS): None

Section 311/312 Hazard Categories: Fire Hazard Yes

Reactive Hazard No
Release of Pressure Yes
Acute Health Hazard Yes
Chronic Health Hazard No

Section 313 Toxic Chemicals: This product contains the following substances subject to the reporting

requirements of Section 313 of Title III of the Superfund Amendments and

Reauthorization Act of 1986 and 40 CFR Part 372:

None

CRC Parts #09677 & 79677

Clean Air Act:

Section 112 Hazardous Air Pollutants (HAPs): None

State Regulations

California Safe Drinking Water and Toxic Enforcement Act (Prop 65):

This product may contain the following chemicals known to the state of California to cause cancer, birth defects or other reproductive harm:

NONE

State Right to Know:

New Jersey: None Pennsylvania: None Massachusetts: None Rhode Island : None

Additional Regulatory Information: None

Section 16: Other Information

NFPA: Health: 1 Flammability: 2 Reactivity: 0

HMIS: Health: 1 Flammability: 2 Reactivity: 0 PPE: B
